

# Emergency Services Trailer Operations Instructor Level - TTT Course

This is an Instructor Level program designed to provide an overview of preferred educational methodology and class content. Participants will receive a flash drive to utilize for their class presentations. Many departments lack the expertise or training to hook up and move a trailer properly. This program was developed to teach the emergency vehicle operator the proper techniques and procedures for towing a trailer. The target audience for this class includes instructors that will be teaching emergency service vehicle operators that utilize a variety of vehicle that are towed. *The student level class normally runs approximately 6 hours in length with classroom and outside competency course set-up.*

## September 17, 2021
